i1000™  
series

What does the *i* stand for...

**W**elcome to Brian Moore Guitars, home of the 'iGuitar', where playing guitar is inspirational, imaginative and FUN!

Since 1992 we have focused on designing innovative guitars that blend the very best of art and technology, resulting in extremely versatile instruments. Our hand made Custom Shop guitars have been rated among the best available in the world today. And our groundbreaking i2000 Series guitars brought our unique features and top-line components together at lower prices.

Now we would like to introduce you to our most affordable guitars yet, the i1000 Series. These instruments feature our comfort contoured top and sculpted headstock, along with all the classic humbucker and single coil sounds we are famous for. And every instrument is set-up and inspected in our LaGrange, NY, Custom Shop facility.

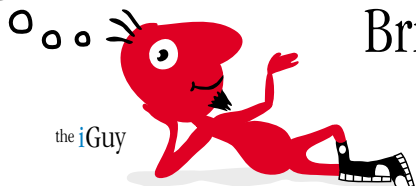

These iGuitar models embrace all the latest technology and offer every guitarist new and creative musical possibilities. They feature built-in RMC piezo for warm, authentic acoustic tone and fast tracking 13-pin access to explore all of the fun sounds from the latest 13-pin compatible systems from Roland and other manufacturers.

There is a growing trend in technology based guitar products. The iGuitar allows your guitar to be the primary controller for your home or project studio environment and can expand your live performance possibilities.

Enter a world where the guitar inspires and enhances your musical creativity and enjoy!

The **i** stands  
for **FUN!**

# Getting the most from your **iGuitar**®!

## 1 Great Electric!

(Magnetic Amp)

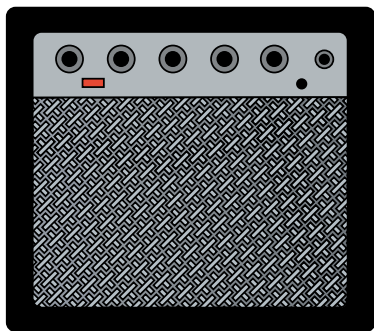

*iGuitar21.13* or  
any 13-pin Model

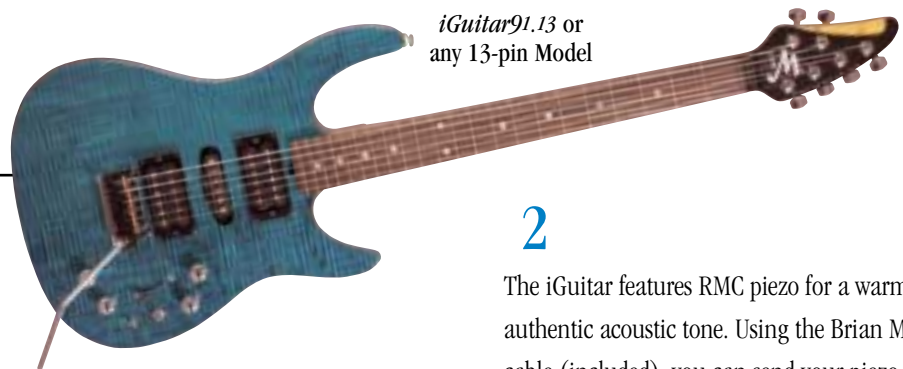

### 1

All i1000 models feature classic “iM” Alnico pickups for warm, harmonic rich tone and single coil sounds. Plug into your favorite amp using a regular mono guitar cord.

## 2 Piezo Adds Acoustic Tone!

(Magnetic Amp)

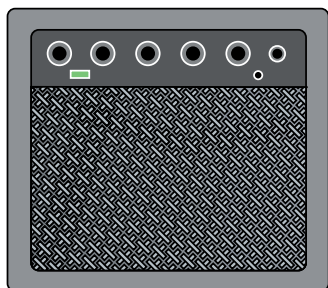

*iGuitar91.13* or  
any 13-pin Model

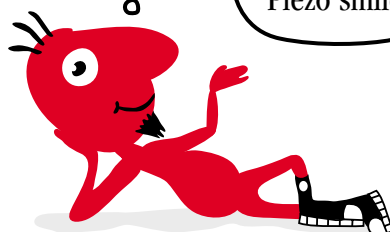

### 2

The iGuitar features RMC piezo for a warm, authentic acoustic tone. Using the Brian Moore “Y” cable (included), you can send your piezo pickup to an acoustic amp, mixer or P.A., while sending your magnetic pickups to a regular guitar amp or rig, keeping the integrity of your regular magnetic tone.

(You will get the best authentic acoustic tone by sending the piezo to an acoustic amp, mixer or P.A.)

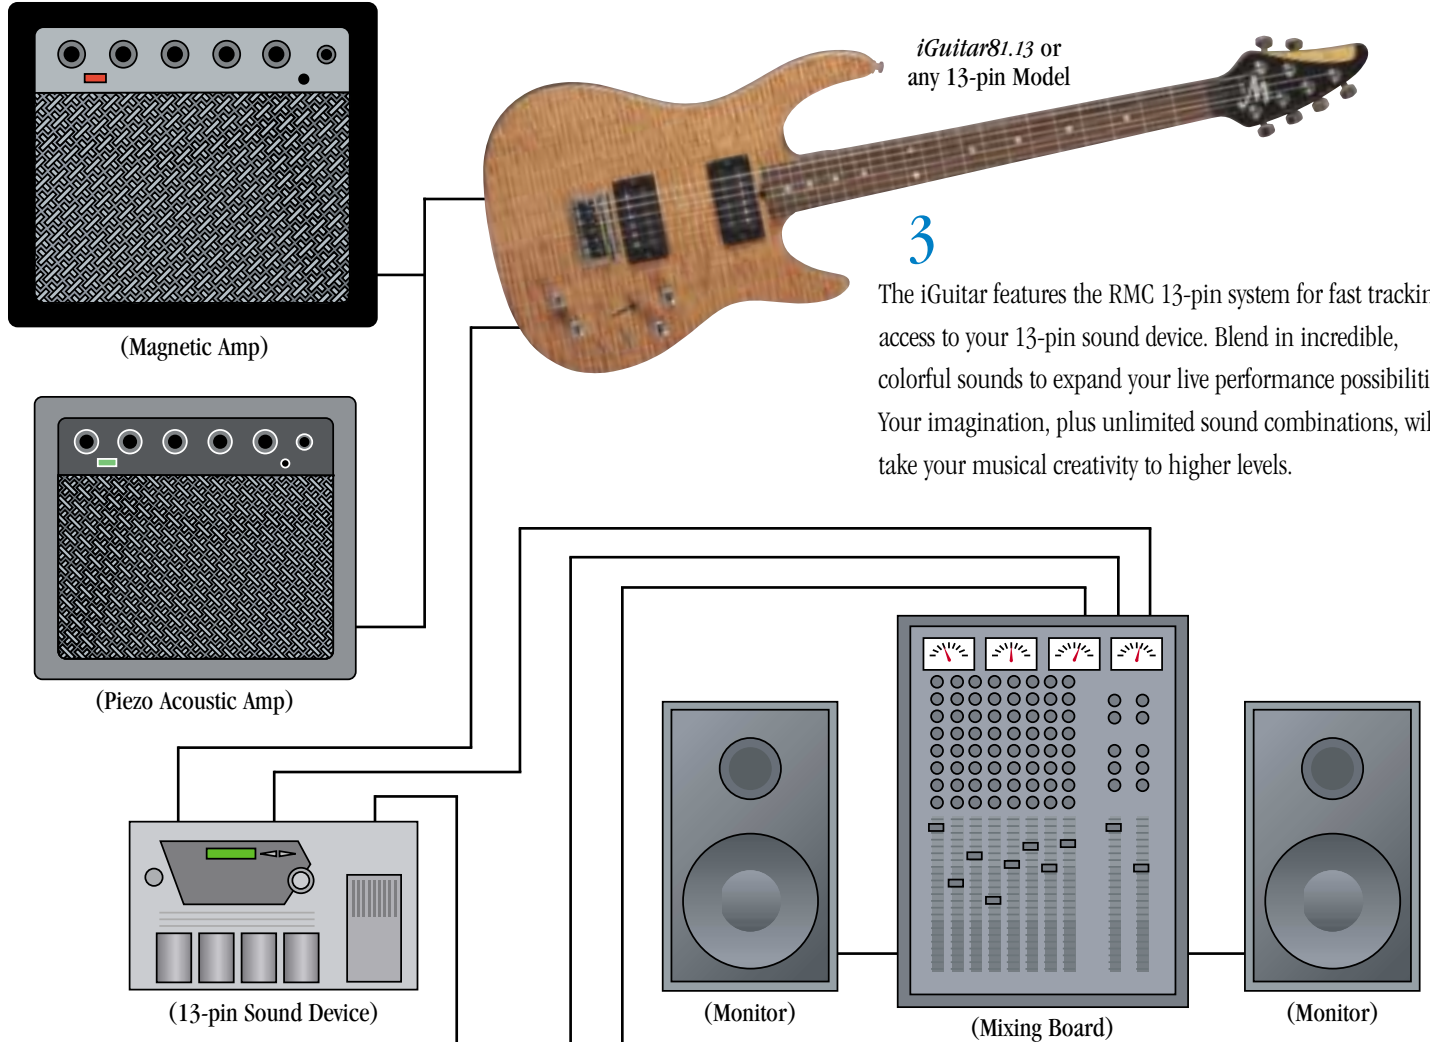

(Piezo Acoustic Amp, P.A. or Mixer)

Get that  
Piezo smile!

### 3 Add 13-Pin 'FUN' Sounds!

3 The iGuitar features the RMC 13-pin system for fast tracking access to your 13-pin sound device. Blend in incredible, colorful sounds to expand your live performance possibilities. Your imagination, plus unlimited sound combinations, will take your musical creativity to higher levels.

### 4 Control Your Project Studio!

4 With the iGuitar and your 13-pin sound device, you can control your entire home recording and project studio, other keyboard sound devices, or record directly into the latest Studio computer software.

Brian Moore Guitars®

i1000™  
series

*Features & Benefits*

A Brian Moore Guitar is as distinctive as the way you play. Below are some of the features, options and benefits that make Brian Moore Guitars stand out from the rest.

The unique sculpted headstock featuring 'iM' Tuners for precision tuning

Beautifully figured Maple wood tops

Innovative rear output jack keeps output cable hidden away and snug behind your guitar strap

The built-in RMC 13-pin polydrive system provides direct access to all of the latest versions of 13-pin guitar products for fast, accurate tracking

The Comfort Contoured Top delivers the ultimate playing experience. This design creates a lighter, more ergonomically correct body shape that actually increases your playing comfort. The curved top also reduces contact between the guitar and the pick as it leaves the strings, reducing pick scratches.
